

Bloxham Year 2 Yearly Overview

Term 1	
Strand	Key learning
Number and place value	<ul style="list-style-type: none"> estimate and count a number of objects up to 100 locate numbers on 0-100 beaded lines and 1-100 squares compare pairs of numbers and find a number in between order three numbers; order 2-digit numbers
Number and place value Mental addition and subtraction	<ul style="list-style-type: none"> revise number bonds to 6, 7, 8, 9 and 10 know number bonds to 10 and begin to learn related subtraction facts know multiple of 10 number bonds to 100 learn bonds to 20 rehearse number bonds to 10 and 20 using stories
Number and place value Mental addition and subtraction	<ul style="list-style-type: none"> double numbers to double 15 use patterns in number bonds use number bonds to solve more difficult additions, subtractions and to solve additions bridging 10
Number and place value Mental addition and subtraction	<ul style="list-style-type: none"> mark numbers on a landmarked line compare and order numbers, using $<$ and $>$ signs find 1 and 10 more or less using the 100-square find 10 more and 10 less than any 2-digit number
Term 2	
Strand	Key learning
Number and place value Mental addition and subtraction	<ul style="list-style-type: none"> know and use ordinal numbers understand that 2-digit numbers are made from some 10s and some 1s understand place value using 10p and 1p coins find 10p more and 10p less find 10 more and 10 less
Mental addition and subtraction	<ul style="list-style-type: none"> add and subtract 10, 20 and 30 to any 2-digit number add and subtract 11, 21, 12 and 22 to any 2-digit number solve addition and subtractions by counting on and back in 10s then in 1
Mental addition and subtraction	<ul style="list-style-type: none"> add and subtract 2-digit numbers add near doubles to double 15 add several small numbers spotting near doubles or pairs to 10
Number and place value Mental multiplication and division Measurement	<ul style="list-style-type: none"> count in 2s, 5s and 10s from zero count in multiples of 2p, 5p and 10p number sequences of 2s, 5s and 10s find the totals of coins and ways to make an amount use coins to make given amounts of money

Term 3	
Strand	Key learning
Mental addition and subtraction Fractions, ratio and proportion Mental multiplication and division	<ul style="list-style-type: none"> • revise doubles and corresponding halves to 15 • find half of odd and even numbers to 30 • revise and recognise $\frac{1}{2}$s, $\frac{1}{4}$s, $\frac{1}{3}$s and $\frac{2}{3}$s of shapes • place $\frac{1}{2}$s on a number line; count in $\frac{1}{2}$s and $\frac{1}{4}$s • understand and write mixed numbers
Number and place value Mental multiplication and division	<ul style="list-style-type: none"> • count in 2s, 5s and 10s to solve multiplication problems and find specified multiples • introduce the \times sign • record the 2, 5 and 10 times tables • find multiplications with the same answer • write multiplications to go with arrays, rotate arrays to show they are commutative
Mental multiplication and division	<ul style="list-style-type: none"> • revise 2, 5 and 10 times tables • revise arrays and hops on the number line • multiply by numbers other than 2, 5 and 10 • arrange objects into arrays and write the corresponding multiplications • make links between grouping and multiplication to begin to show division • write divisions as multiplications with holes in and use the \div sign
Measurement Mental addition and subtraction	<ul style="list-style-type: none"> • recognise all coins, know their value, and use them to make amounts • recognise £5, £10, £20 notes • make amounts using coins and £10 note • write amounts using £.p notation • order coins 1p-£2 and notes £5 - £20 • add several coins writing totals in £.p notation (no zeros in 10p place) • add two amounts of pence, using counting on in tens and ones • add two amounts of money, beginning to cross into £s
Term 4	
Strand	Key learning
Number and place value	<ul style="list-style-type: none"> • place value and ordering 2-digit numbers • place value additions and subtractions • add and begin to subtract 9, 10, and 11
Mental addition and subtraction Number and place value	<ul style="list-style-type: none"> • revise number bonds to 10 • begin to bridge 10 • subtract from 10 and 20 • use number facts to find the complement to ten • find a difference between two numbers by counting on
Mental addition and subtraction Measurement	<ul style="list-style-type: none"> • rehearse complements to multiples of 10 • find differences using a number line • find change from 10p and 20p, and from £10 to £20 by counting up and using bonds to 10 and 20 • add two 2-digit numbers by counting on
Number and place value	<ul style="list-style-type: none"> • order 2-digit numbers and revise the $<$ and $>$ signs • locate 2-digit numbers on a landmarked line and grid • round 2-digit numbers to nearest 10 • estimate a quantity <100 within a range

Term 5

Strand	Key learning
Number and place value Addition and subtraction	<ul style="list-style-type: none"> locate, order and compare 2-digit numbers on 0-100 landmarked lines and on the 1-100 grid use < and > signs locate numbers on an empty 0-100 line introduce numbers 101 to 200 and count in 100s to 1000 add 2-digit numbers by counting on in 10s and 1s subtract 2-digit numbers by counting back in 10s and 1s
Number and place value Addition and subtraction	<ul style="list-style-type: none"> use doubles and number bonds to add three 1-digit numbers use number facts to 10 and 20 in number stories find complements to multiples of 10 understand subtraction as difference and find this by counting up find small differences either side of a multiple of 10
Addition and subtraction	<ul style="list-style-type: none"> add and subtract 1-digit numbers to and from 2-digit numbers subtract 2-digit numbers by counting back in tens and ones add two 2-digit numbers by counting in 10s, then adding 1s add 2-digit numbers using 10p and 1p coins (partitioning, answers less than 100) add 2-digit numbers using place value cards (partitioning, answers more than 100)
Addition and subtraction Fractions, ratio and proportion	<ul style="list-style-type: none"> double multiples of 10 and 5 (answers less than 100) double 2-digit numbers ending in 1, 2, 3 or 4 (answers less than 100) find a quarter of numbers up to 40 by halving twice begin to find $\frac{3}{4}$ of numbers find $\frac{1}{2}$, $\frac{1}{4}$ and $\frac{1}{3}$ of amounts (sharing) find patterns spot patterns and make predictions when finding a third of numbers

Term 6

Strand	Key learning
Number and place value Measurement addition and subtraction	<ul style="list-style-type: none"> count back in 10s and 1s to solve subtraction (not crossing 10s) check subtraction using addition add 3 or more small numbers using number facts record amounts of money including £.p notation including amounts with no 10s or 1s find more than one way to solve a money problem
Number and place value Mental multiplication and division	<ul style="list-style-type: none"> count in 3s, recognising numbers in the 3x table write multiplications to go with arrays understand that multiplication is commutative understand that division and multiplication are inverse operations solve divisions as multiplications with a missing number count in 2s, 3s, 5s and 10s to solve divisions
Mental multiplication and division Addition and subtraction	<ul style="list-style-type: none"> partition to add two 2-digit numbers find a difference between two 2-digit numbers multiply two numbers using counting in steps of 2, 3, 5 and 10 solve division problems by counting in steps of 2, 3, 5 and 10
Number and place value Measurement	<ul style="list-style-type: none"> Compare two 2-digit numbers and find bonds to 100 using thermometers Revise place value in 2-digit numbers, numbers between 100 and 200 and 3-digit numbers (including zero in the 10s and 1s place)

Themed strands that are linked to other subjects

Shape:	<ul style="list-style-type: none"> • sort 2D shapes according to symmetry properties using Venn diagrams • identify right angles and sort shapes using Venn diagrams • recognise squares, rectangles, circles, triangles, ovals and hexagons and discover which tessellate • sort shapes and objects using a two-way Carroll diagram
Position and direction: Measurement:	<ul style="list-style-type: none"> • understand and use terms and vocabulary associated with position, direction and movement • measure lengths using uniform units begin to measure in centimetres and metres
Shape: Measurement: Position and direction:	<ul style="list-style-type: none"> • recognise and identify properties (including faces and vertices) of 3D shapes • sort according to properties including number of faces • name the 2D shapes of faces of 3D shapes • tell the time to the nearest quarter on analogue and digital clocks
Measurement: Statistics:	<ul style="list-style-type: none"> • tell the time to the nearest quarter of an hour using analogue and digital clocks • understand units of time • express hours in minutes and minutes in seconds • interpret and complete a pictogram where one symbol represents one or two things
Measurement: Statistics:	<ul style="list-style-type: none"> • measure weight using standard or uniform non-standard units • draw a block graph where one square represents two units • weigh items using 100g weights using scales marked in multiples of 1kg or 100g • measure capacity using uniform non-standard units • measure capacity in litres and in multiples of 100ml
Measurement:	<ul style="list-style-type: none"> • measure and estimate lengths in centimetres • tell the time involving multiples of 5 minutes past the hour and 5 minutes to the hour • tell time to five minutes • say the time 10 minutes later
